

Compact Rotary Stages

Overview

- Stage Diameter : Ø54.2 mm / Ø79 mm
- Coarse / Fine Adjustment : 360° continuous rotation
- Weight : 0.21 kg (RS-1) / 0.40 kg (RS-2)
- Load : 2 kg
- Bearing Type : Ball bearing
- Metric / Imperial version
- Material : Aluminum with black anodized
- Center and side with M6x1P tapped mounting holes
- Platform laser marked 360° scales with resolution 1°
- To order Imperial model please add * I - * to Item number
- MC-2 is not included and can be purchased separately for holding cylindrical optics

Specification & Item Numbers

RS-1

RS-2

RS-1

RS-2

Item Number	Travel Guide	Rotation Range	Drive Type	Platform Diameter (arc-min)	Center & Side Mounting Holes	Weight (kg)	Load (kg)
RS - 1	BB	360° cont	Gear	Ø 54.5 (2.15")	M6 x 1P	0.21	2
RS - 2	BB	360° cont	Gear	Ø 75.0 (3.0")	M6 x 1P	0.40	2

Item Number	
MC - 2	MC-2 can be purchased separately and used with RC-1 or RC-2 for holding cylindrical optics

• I = To order Imperial model please add * I - * to Item number / BB = Ball Bearing / 100 = 100 pitch adjustment screw
